BELLAMIANITA

LUXURY TANNING

WHY CHOOSE BELLAMIANITA

Bellamianta tanning products are enriched with natural oils, which are filled with omega 3, 6 and 9, contain one of the highest, premium grade DHA's. This luxury DHA works with the skin's natural melanin to provide our signature golden tone.

The sumptuous formulas are filled with natural moisturisers making it suitable for dry irritated skin. All of our formulas are enriched with shea butter and aloe vera, which through vitamin A, C and E soothe and restore skin elasticity. The tan is enriched with Pentavitin® to hydrate the skin from within. These hard working ingredients are carefully chosen and blended to provide you with a more moisturised, better, longer lasting tan.
